ABOUT ME

With a Bachelor's degree in ECE Engineering and over a year of experience as a software developer, I am passionate about software engineering and eager to further enhance my skills. I have a strong foundation in software development, which was further reinforced through practical experience gained during internships and full-time roles. I excel in collaborative environments, where I can contribute innovative solutions and take ownership of projects. I am a quick learner, adaptable to new technologies, and thrive on challenges.

WORK EXPERIENCE

Software developers

Trakkerz [02/02/2023 – 31/03/2024]

City: Kolkata | Country: India

Collaborated with cross-functional teams at **Vawsum School Pvt Ltd** to design and implement innovative front-end modules and features, contributing to the development of the Vawsum.

- Created APIs and integrated them into the frontend, ensuring seamless data flow and dynamic user interactions.
- Assisted in training new hires, providing guidance and support to facilitate their integration into the team.
- Successfully launched a new module that improved the company's efficiency by 20%.
- Reduced the time it took to develop new modules by 15%.

Web Developer Internship

Vawsum School Pvt Ltd [18/10/2022 – 31/01/2023]

City: Kolkata | Country: India

During my internship, I collaborated closely with senior developers and team members to develop and maintain web applications. I gained valuable experience in front-end development and learned how to work independently, taking ownership of my projects. Additionally, I had the opportunity to create **customized websites** for our **clients**, enhancing my skills in client-facing roles and project delivery.

EDUCATION AND TRAINING

Bachelor of Technology in Electronics and Communication Engineering

Adamas University [01/08/2018 – 31/07/2022]

City: Kolkata | Country: India | Website: <https://adamasuniversity.ac.in/>

DIGITAL SKILLS

OOP / Functional Programming / MVVM / Rest APIs / MVC / MySQL / MongoDB / Node / Express / React / Cakephp / Bootstrap / JavaScript / Python / Php / HTML/CSS

PROJECTS

Account Management System -(Node.js, MongoDB, Express and React) Developed a **RESTful API** using **Node.js** and **Express** for an account management system. This API allows users to **register**, **login**, and **authenticate**, as well as manage their account details and contacts. Implemented **CRUD operations** for managing contacts, including **creating**, **reading**, **updating**, and **deleting** contact information. Integrated **JWT token** for secure authentication and connected the backend to a **MongoDB** database. Built a user-friendly UI using **React**.
